CSE 491 — Supervisor Meeting Form

One form per meeting. Complete the form during the meeting, have it signed by the project supervisor, and upload the signed copy to the course MS Teams channel within one week of the meeting. For any problem, contact the course assistant through MS Teams.

Project title	A Human-in-the-Loop Knowledge Graph Generation Engine for Preventing Hallucination and Schema Drift in LLMs: An Application on Hadith Isnad Chains		
Group members (name, no.)	Yahya Efe Kuruçay Deniz Büyükşahin Alperen Ulukaya		
Project supervisor	Res. Asst. Dr. Taha Yiğit Alkan	**Meeting no.**	2
Date / duration	16.10.2026 / 15 minutes	**Attendees**	All group members and the project supervisor
Work completed since the last meeting	Following the meeting on 9 October, we continued our literature review and examined studies related to hadith narrator extraction and knowledge graph construction. We presented and compared our findings, discussed overlaps with existing work, and identified potential research gaps and areas for a focused contribution. We also discussed involving two or more Hadith scholars in the project.		
Issues, risks and blockers discussed	The specific research contribution needs further refinement. Expert input will be needed to prepare the annotation guidelines and review ambiguous cases.		
Decisions and action items (with owner and due date)	We agreed to refine our research question based on the studies we reviewed. Our supervisor recommended exploring collaboration with at least two Hadith scholars. We will identify potential scholars and prepare an initial draft of the TÜBİTAK 2209-A application. Owner: All group members. Due: Before the next meeting.		
Plan until the next meeting	We will prepare a comparison table of the related studies, summarize their similarities and differences, and revise our project scope and research question. We will also identify Hadith scholars to consult, prepare questions about expert review, and use the updated project scope to complete the first draft of the TÜBİTAK 2209-A application.		
Date of the next meeting	23.10.2026		
Supervisor's assessment	Insufficient ☐ Adequate ☐ Good ☐ Very good ☐
